Commission Implementing Regulation (EU) No 190/2013  
of 5 March 2013

amending Implementing Regulation (EU) No 540/2011 as regards the conditions of approval of the active substance sodium hypochlorite

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC [1], and in particular Article 13(2)(c) thereof,

Whereas:

(1) The active substance sodium hypochlorite was included in Annex I to Council Directive 91/414/EEC [2] by Commission Directive 2008/127/EC [3] in accordance with the procedure provided for in Article 24b of Commission Regulation (EC) No 2229/2004 of 3 December 2004 laying down further detailed rules for the implementation of the fourth stage of the programme of work referred to in Article 8(2) of Council Directive 91/414/EEC [4]. Since the replacement of Directive 91/414/EEC by Regulation (EC) No 1107/2009, this substance is deemed to have been approved under that Regulation and is listed in Part A of the Annex to Commission Implementing Regulation (EU) No 540/2011 of 25 May 2011 implementing Regulation (EC) No 1107/2009 of the European Parliament and of the Council as regards the list of approved active substances [5].

(2) In accordance with Article 25a of Regulation (EC) No 2229/2004, the European Food Safety Authority, hereinafter "the Authority", presented to the Commission its view on the draft review report for sodium hypochlorite [6] on 25 June 2012. The Authority communicated its view on sodium hypochlorite to the notifier. The Commission invited it to submit comments on the draft review report for sodium hypochlorite. The draft review report and the view of the Authority were reviewed by the Member States and the Commission within the Standing Committee on the Food Chain and Animal Health and finalised on 1 February 2013 in the format of the Commission review report for sodium hypochlorite.

(3) It is confirmed that the active substance sodium hypochlorite is to be deemed to have been approved under Regulation (EC) No 1107/2009.

(4) In accordance with Article 13(2) of Regulation (EC) No 1107/2009 in conjunction with Article 6 thereof and in the light of current scientific and technical knowledge, it is necessary to amend the conditions of approval of sodium hypochlorite. Despite comprehensive information on sodium hypochlorite as generally available commodity substance exists, if only data provided by the notifier are taken into account, the exposure assessment to operator, worker and surface water could not be finalised. Therefore, it is opportune to restrict the authorisations to indoor uses and to insert some new provisions for the Member States granting authorisations for plant protection products containing sodium hypochlorite.

(5) The Annex to Implementing Regulation (EU) No 540/2011 should therefore be amended accordingly.

(6) A reasonable period of time should be allowed before the application of this Regulation in order to allow Member States, notifiers and holders of authorisations for plant protection products to meet the requirements resulting from amendment to the conditions of the approval.

(7) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

#### Article 1

Part A of the Annex to Implementing Regulation (EU) No 540/2011 is amended in accordance with the Annex to this Regulation.

#### Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the Official Journal of the European Union.

It shall apply from 1 July 2013.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 5 March 2013.

For the Commission

The President

José Manuel Barroso

#### ANNEX

In Part A of the Annex to Implementing Regulation (EU) No 540/2011, row 254 on the active substance sodium hypochlorite is replaced by the following:

Number	Common Name, Identification Numbers	IUPAC Name	Purity [1]	Date of approval	Expiration of approval	Specific provisions
--------	-------------------------------------	------------	------------	------------------	------------------------	---------------------

"254	Sodium hypochlorite CAS No: 7681-52-9 CIPAC: 848	Sodium hypochlorite	Sodium hypochlorite: 105 g/kg-126 g/kg (122 g/L-151 g/L) technical concentrate 10-12 % (w/w) expressed as chlorine	1 September 2009	31 August 2019	PART A Only indoor uses as disinfectant may be authorised. PART B For the implementation of the uniform principles as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the review report on sodium hypochlorite (SANCO/2988/2008) and in particular Appendices I and II thereof, as finalised in the Standing Committee on the Food Chain and Animal Health on 1 February 2013 shall be taken into account. In this overall assessment Member States shall pay particular attention to: (a) the risk to operator and workers; (b) the exposure of soil to sodium hypochlorite and its reaction products through spreading of treated compost on organic land shall be avoided. Conditions of use shall include risk mitigation measures, where appropriate."
------	--	---------------------	--	------------------	----------------	--
