

DEPARTMENT OF THE ENVIRONMENT

CANADIAN ENVIRONMENTAL PROTECTION ACT, 1999

Significant New Activity Notice No. 15720

Significant New Activity Notice

(Section 85 of the *Canadian Environmental Protection Act, 1999*)

Whereas the Minister of the Environment and the Minister of Health have assessed information in respect of the substance 2-Propenoic acid, 2-methyl, alkyl ester, polymer with 1,1-dichloroethene, alkyl 2-methyl-2-propenoate and perfluoroalkyl 2-methyl-2-propenoate;

Whereas the substance is not on the *Domestic Substances List*;

And whereas the Ministers suspect that a significant new activity in relation to the substance may result in the substance becoming toxic under the *Canadian Environmental Protection Act, 1999*,

Therefore, the Minister of the Environment indicates, pursuant to section 85 of that Act, that subsection 81(4) of the same Act applies with respect to the substance in accordance with the Annex.

JIM PRENTICE
Minister of the Environment

ANNEX

Information Requirements

(Section 85 of the *Canadian Environmental Protection Act, 1999*)

1. In relation to 2-Propenoic acid, 2-methyl, alkyl ester, polymer with 1,1-dichloroethene, alkyl 2-methyl-2-propenoate and perfluoroalkyl 2-methyl-2-propenoate, a significant new activity is
 - (a) the manufacture of the substance in Canada in any quantity; or
 - (b) the use of the substance in Canada, in any quantity, other than for use as a component of an oil and water repellent or an anti-soiling agent when they are applied to textiles or carpeting in an industrial setting at a concentration of no more than 5% in a primarily aqueous treatment dispersion.
2. A person who proposes a significant new activity set out in this Notice for this substance shall provide to the Minister of the Environment, at least 90 days prior to the commencement of the proposed significant new activity, the following information:
 - (a) a description of the proposed significant new activity in relation to the substance;
 - (b) the information specified in Schedule 9 to the *New Substances Notification Regulations (Chemicals and Polymers)*;
 - (c) the information specified in item 5 of Schedule 10 to those Regulations;

(d) for applications mentioned in paragraph (1)(b) where the concentration is higher than 5%, the test data and a test report from a skin sensitization study, in respect of the substance, conducted according to the methodology described in the Organisation for Economic Co-operation and Development Test Guideline No. 429, titled *Skin Sensitisation – Local Lymph Node Assay*, and in conformity with the practices described in the “Organisation for Economic Co-operation and Development Principles of Good Laboratory Practice” set out in Annex 2 of the *Decision of the Council Concerning the Mutual Acceptance of Data in the Assessment of Chemicals*, adopted on May 12, 1981, and that are current at the time the test data are developed;

(e) for applications involving spraying of the substance in a location other than an industrial setting

(i) the test data and a test report from an inhalation toxicity study, in rats, on 6:2 Fluorotelomer alcohol, conducted according to the methodology described in the Organisation for Economic Co-operation and Development Test Guideline No. 413, titled *Subchronic Inhalation Toxicity: 90-day Study*, and in conformity with the practices described in the “Organisation for Economic Co-operation and Development Principles of Good Laboratory Practice” set out in Annex 2 of the *Decision of the Council Concerning the Mutual Acceptance of Data in the Assessment of Chemicals*, adopted on May 12, 1981, and that are current at the time the test data are developed, or any other similar study or information that will permit assessment of the inhalation toxicity of 6:2 Fluorotelomer alcohol; and

(ii) any other information in the person’s possession or to which they have access, that will permit the assessment of the subchronic inhalation toxicity of 6:2 Fluorotelomer alcohol; and

(f) any other information or data in respect of this substance in the person’s possession or to which they have access, that is relevant in order to determine whether the substance is toxic or capable of becoming toxic.

3. The above information will be assessed within 90 days after the day on which it is received by the Minister of the Environment.

EXPLANATORY NOTE

(This explanatory note is not part of the Significant New Activity Notice.)

A Significant New Activity Notice is a legal instrument issued by the Minister of the Environment pursuant to section 85 of the *Canadian Environmental Protection Act, 1999*. The Significant New Activity Notice sets out the appropriate information that must be provided to the Minister for assessment prior to the commencement of a new activity as described in the Notice.

Substances that are not listed on the *Domestic Substances List* can be manufactured or imported only by the person who has met the requirements set out in section 81 of the *Canadian Environmental Protection Act, 1999*. Under section 86 of the *Canadian Environmental Protection Act, 1999*, in circumstances where a Significant New Activity Notice is issued for a new substance, it is the responsibility of every person who transfers the physical possession or control of

the substance to notify all persons to whom the possession or control is transferred of the obligation to comply with the Significant New Activity Notice and of the obligation to notify the Minister of the Environment of any new activity and all other information as described in the Notice. It is the responsibility of the users of the substance to be aware of and comply with the Significant New Activity Notice and to submit a Significant New Activity notification to the Minister prior to the commencement of a significant new activity associated with the substance. However, as mentioned in subsection 81(6) of the *Canadian Environmental Protection Act, 1999*, a Significant New Activity notification is not required when the proposed new activity is regulated under an act or regulations listed on Schedule 2 of the *Canadian Environmental Protection Act, 1999*.

A Significant New Activity Notice does not constitute an endorsement from Environment Canada or the Government of Canada of the substance to which it relates, or an exemption from any other laws or regulations that are in force in Canada and that may apply to this substance or activities involving the substance.
