

CANADIAN ENVIRONMENTAL PROTECTION ACT, 1999

Significant New Activity Notice No. 16327

Significant New Activity Notice

(Section 85 of the *Canadian Environmental Protection Act, 1999*)

Whereas the Minister of the Environment and the Minister of Health have assessed information in respect of the substance Phosphonic acid, P-methyl-, diphenyl ester, polymer with 4,4'-(1-methylethylidene)bis[phenol], under section 83 of the *Canadian Environmental Protection Act, 1999*;

Whereas the substance is not specified on the *Domestic Substances List*;

And whereas the Ministers suspect that a significant new activity in relation to the substance may result in the substance becoming toxic within the meaning of section 64 of the *Canadian Environmental Protection Act, 1999*,

Therefore, the Minister of the Environment indicates, pursuant to section 85 of the *Canadian Environmental Protection Act, 1999*, that subsection 81(4) of that Act applies to the substance in accordance with the Annex.

PETER KENT

Minister of the Environment

ANNEX

Information Requirements

(Section 85 of the *Canadian Environmental Protection Act, 1999*)

1. In relation to the substance Phosphonic acid, P-methyl-, diphenyl ester, polymer with 4,4'-(1-methylethylidene)bis [phenol], a significant new activity is the use of the substance in foams for household upholstered furniture and mattresses, or for other items intended for use by or for children.

2. The following information must be provided to the Minister, at least 90 days before the commencement of each proposed significant new activity:

- (a) a description of the proposed significant new activity in relation to the substance;
- (b) the information specified in Schedule 9 to the *New Substances Notification Regulations (Chemicals and Polymers)*;
- (c) the information specified in item 5 of Schedule 10 to those Regulations;
- (d) the data from a repeated-dose mammalian toxicity test of the substance of at least 28 days duration, using the most significant route of potential human exposure to the substance, namely, oral, dermal or inhalation, plus
 - (i) the age, sex, number, species, strain and source of the animals tested,

- (ii) the route by which the substance is administered and the conditions under which the test is conducted, and
- (iii) the dose of the substance, the vehicle by means of which the substance is administered and its concentration in that vehicle;
- (e) the information specified in subitems 10(a) and (b) of Schedule 11 to those Regulations; and
- (f) all other information or test data concerning the substance that are in the possession of the person who intends to use the substance for the proposed significant new activity, or to which they have access, and that are relevant to determining whether the substance is toxic or capable of becoming toxic, including information or test data that are relevant to determining the repeated-dose mammalian toxicity of the substance.

3. The laboratory practices to be followed in developing the data referred to in paragraph 2(d) must comply with those practices set out in the *OECD Principles of Good Laboratory Practice* that are current at the time the test data are developed. The Principles are set out in Annex 2 of the *OECD Decision of the Council Concerning the Mutual Acceptance of Data in the Assessment of Chemicals*, adopted by the Organisation for Economic Co-operation and Development on May 12, 1981.

4. The above information will be assessed within 90 days after the day on which it is received by the Minister.

EXPLANATORY NOTE

(This explanatory note is not part of the Significant New Activity Notice.)

A Significant New Activity Notice is a legal instrument issued by the Minister of the Environment pursuant to section 85 of the *Canadian Environmental Protection Act, 1999*. The Significant New Activity Notice sets out the appropriate information that must be provided to the Minister for assessment prior to the commencement of a new activity as described in the Notice.

Substances that are not listed on the *Domestic Substances List* can be manufactured or imported only by the person who has met the requirements set out in section 81 of the *Canadian Environmental Protection Act, 1999*. Under section 86 of the *Canadian Environmental Protection Act, 1999*, in circumstances where a Significant New Activity Notice is issued for a new substance, it is the responsibility of every person who transfers the physical possession or control of the substance to notify all persons to whom the possession or control is transferred of the obligation to comply with the Significant New Activity Notice and of the obligation to notify the Minister of the Environment of any new activity and all other information as described in the Notice. It is the responsibility of the users of the substance to be aware of and comply with the Significant New Activity Notice and to submit a Significant New Activity notification to the Minister prior to the commencement of a significant new activity associated with the substance. However, as mentioned in subsection 81(6) of the *Canadian Environmental Protection Act, 1999*, a Significant New Activity notification is not

required when the proposed new activity is regulated under an act or regulations listed on Schedule 2 to the *Canadian Environmental Protection Act, 1999*.

A Significant New Activity Notice does not constitute an endorsement from Environment Canada or the Government of Canada of the substance to which it relates, or an exemption from any other laws or regulations that are in force in Canada and that may apply to this substance or activities involving the substance.
