§ 743.6 Prior notifications to Congress of exports of certain semiautomatic firearms.

- (a) **General requirement.** Applications to export semi-automatic firearms controlled by ECCNs 0A506 or 0A507 will be notified to Congress as provided in this section before licenses for such items are issued, except as specified in paragraphs (a)(1) and (2) of this section.

shotguns, other 0x5zz items, or other items subject to the EAR, but the applicant must clearly identify the semi-automatic firearms controlled by ECCNs 0A506 or 0A507. The applicant clearly distinguishing the semi-automatic firearms controlled by ECCNs 0A506 or 0A507 from any other items on the license application will assist BIS in assessing whether the license application requires congressional notification under this section and identifying the information that will need to be reported to Congress. Any activity intended to circumvent notification requirements is prohibited. Such devices include, but are not limited to, the splitting or structuring of contracts to avoid exceeding applicable notification dollar value limits described in paragraph (a) of this section.

- (d) **Additional information.** For questions on this section, you may contact the Nuclear and Missile Technology Controls Division, Guns and Ammunition licensing group at firearmsCN@bis.doc.gov.

Supplement No. 2 to Part 743 Authorized Integrated Circuit Designer Know Your Customer (KYC) Vetting Form

This supplement contains a questionnaire that must be completed as part of the reporting requirements for authorized integrated circuit designers in § 743.9 of the EAR. The questions in the form are KYC best practices that are especially critical in this context where there is a risk of companies seeking advanced foundry services in circumvention of controls on advanced computing items. They are not an exhaustive list of due diligence requirements but provide important information that should be part of KYC screening.
