General provision

§ 1 In this regulation there are regulations that connect to the law (1999:42) on the prohibition of certain health-hazardous goods. The expressions and designations used in the law have the same meaning in this regulation.

Hazardous goods

§ 2 The goods specified in the annex to this regulation shall be considered as health-hazardous goods according to the Act (1999:42) on the prohibition of certain health-hazardous goods.

Notification obligation

§ 3 If the Police Agency or the Customs Agency observes in their activities something that indicates that new drugs are being used for the purpose of abuse or that abuse

patterns of known drugs are changing, the authority must report this to the Public Health Agency without delay. Ordinance (2014:1292).

Licensing and supervisory authority

§ 4 The Public Health Authority may issue a permit for handling for a scientific or industrial purpose in accordance with § 3 of the Act (1999:42) on the prohibition of certain health-hazardous goods.

The Public Health Authority may issue regulations on importation, transfer, production, acquisition for the purpose of transfer, offering for sale, possession and keeping of records.

The Public Health Authority may also issue regulations on exemptions from the requirement for a permit.

The Public Health Authority supervises compliance with the law on the prohibition of certain health-hazardous goods as well as with the regulations and conditions announced in connection with the law. Ordinance (2013:896).

Provisions on the processing of permits, etc

§ 5 The Public Health Authority must make a decision in a case concerning a permit according to § 3 of the Act (1999:42) on the prohibition of certain health-hazardous goods within two months from when a complete application has been received by the authority. If it is necessary due to the investigation of the case, the processing time may be extended on no more than one occasion by a maximum of two months. The applicant must be informed of the reasons for extending the processing time before the original deadline has expired.

A decision to extend the processing time may not be appealed.

In section 8 of the Act (2009:1079) on services in the internal market there are provisions that proof of receipt must be sent to the applicant when a complete application has been received and about the content of such proof. Ordinance (2013:896).

§ 6 If the Public Health Authority, in a case concerning a permit according to § 3 of the Act (1999:42) on the prohibition of certain health-hazardous goods, requests that the applicant submit a certificate, certificate or other similar document that shows that a certain permit requirement has been met, the authority must accept the

corresponding document from another state within the European Economic Area. The Public Health Authority may, however, request that the document be submitted in the original or in a certified copy or in the form of an authorized translation into Swedish.
Ordinance (2013:896).

Transitional provisions

2003:77

This regulation enters into force on 1 April 2003. However, the new regulations must be applied for the period from 1 March 2003.

2009:1095

1. This regulation enters into force on December 27, 2009.
2. Applications for permission according to § 3 of the act (1999:42) on the prohibition of certain health-hazardous goods that have entered the Norwegian Public Health Institute before the entry into force but which have not yet been decided are processed according to older regulations.

2013:896

1. This regulation enters into force on January 1, 2014.
2. For a matter concerning a permit according to § 3 of the Act (1999:42) on the prohibition of certain health-hazardous goods in which a complete application has been received by the Norwegian Institute of Public Health according to older regulations, but which at the time of entry into force have not yet been decided by the institute, the time within which the Public Health Authority must make a decision according to section 5 first the paragraph from the time the complete application has been received by the Norwegian Institute of Public Health.
3. The provision in § 6 regarding the acceptance of documents from another state within the European Economic Area in its new wording also applies to documents that the National Institute of Public Health has requested before entry into force.
