

2024/2195

5.9.2024

COMMISSION IMPLEMENTING REGULATION (EU) 2024/2195

of 4 September 2024

determining the format for submitting the reports of data referred to in Article 26 of Regulation (EU) 2024/573 of the European Parliament and of the Council on fluorinated greenhouse gases and repealing Commission Implementing Regulation (EU) No 1191/2014

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2024/573 of the European Parliament and of the Council of 7 February 2024 on fluorinated greenhouse gases, amending Directive (EU) 2019/1937 and repealing Regulation (EU) No 517/2014 ⁽¹⁾, and in particular Article 26(9), second subparagraph,

Whereas:

- (1) Commission Implementing Regulation (EU) No 1191/2014 ⁽²⁾ established the format for the report to be submitted by producers, importers, exporters and certain users of fluorinated greenhouse gases in accordance with Article 19 of Regulation (EU) No 517/2014 of the European Parliament and of the Council ⁽³⁾.
- (2) Regulation (EU) No 517/2014 has since been replaced by Regulation (EU) 2024/573. Article 26 of Regulation (EU) 2024/573 establishes new reporting obligations concerning producers, importers, exporters and certain users of fluorinated greenhouse gases. In particular, the list of gases, equipment containing those gases and activities related to those gases has been extended.
- (3) Implementing Regulation (EU) No 1191/2014 should therefore be repealed.
- (4) The measures provided for in this Regulation are in accordance with the opinion of the Committee on fluorinated greenhouse gases,

HAS ADOPTED THIS REGULATION:

Article 1

The reports referred to in Article 26 of Regulation (EU) 2024/573 shall be based on the format set out in the Annex to this Regulation.

Article 2

Implementing Regulation (EU) No 1191/2014 is repealed.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

⁽¹⁾ OJ L, 2024/573, 20.2.2024, ELI: <http://data.europa.eu/eli/reg/2024/573/oj>.

⁽²⁾ Commission Implementing Regulation (EU) No 1191/2014 of 30 October 2014 determining the format and means for submitting the report referred to in Article 19 of Regulation (EU) No 517/2014 of the European Parliament and of the Council on fluorinated greenhouse gases (OJ L 318, 5.11.2014, p. 5, ELI: http://data.europa.eu/eli/reg_impl/2014/1191/oj).

⁽³⁾ Regulation (EU) No 517/2014 of the European Parliament and of the Council of 16 April 2014 on fluorinated greenhouse gases and repealing Regulation (EC) No 842/2006 (OJ L 150, 20.5.2014, p. 195, ELI: <http://data.europa.eu/eli/reg/2014/517/oj>).

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 4 September 2024.

For the Commission
The President
Ursula VON DER LEYEN

GENERAL EXPLANATIONS

Unless otherwise stated in the reporting sections of this Annex, the reported data shall cover the activities of the undertaking during the calendar year for which the report is submitted.

The units of measurement, the gases covered, the level of detail and an indication of the year in which activities are to be reported are specified separately in each reporting section.

The general format of the reporting tool is set out in the following reporting sections.

REPORTING SECTIONS

Section 1: To be filled in by producers of gases – Article 26(1), first subparagraph, Article 26(2) and (3), of Regulation (EU) 2024/573 and point 1(a) of Annex IX to that Regulation

Quantities shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), separately for each gas listed in Annexes I, II or III to Regulation (EU) 2024/573.

INFORMATION TO BE REPORTED			COMMENTS
1A	Total quantity of production from facilities in the Union		Including amounts produced as by-products and amounts not captured.
1Aa	— thereof: Amounts not captured		
	1A_a	— thereof: Amounts destroyed	If the in-line destruction is carried out by another undertaking, that undertaking should be specified. Reports from producers which carry out destruction on the total quantities destroyed shall be made in reporting Section 8.
AUTOMATICALLY CALCULATED QUANTITIES			
1Ab	— thereof: Total amount generated and captured		$1Ab = 1A - 1Aa$
INFORMATION TO BE REPORTED			COMMENTS
	1B	— thereof: Quantity of production from facilities in the Union consisting of recovered by-production or unwanted products, where that by-production or those products have been destroyed in the facilities prior to the placing on the market	Reports from producers which carry out destruction on the total quantities destroyed shall be made in reporting Section 8.

	1C	— thereof: Quantity of production from facilities in the Union consisting of recovered by-production or unwanted products where that by-production or those products have been handed over to other undertakings for destruction and had not been placed on the market previously	The undertaking carrying out the destruction shall be identified.
	1C_a	— thereof: Amounts of hydrofluorocarbons produced for feedstock uses within the Union	The Member State where feedstock use will take place shall be indicated. The type of feedstock use shall be reported.
	1C_a1	— thereof: Without prior capture	Only to be reported for HFC-23.
AUTOMATICALLY CALCULATED QUANTITIES			COMMENTS
	1C_a2	— thereof: After prior capture	$1C_{a2} = 1C_a - 1C_{a1}$ Calculated only for HFC-23.
INFORMATION TO BE REPORTED			COMMENTS
	1C_b	— thereof: Amount of hydrofluorocarbons produced for uses within the Union exempted under the Montreal Protocol	The type of exempted use shall be specified.
AUTOMATICALLY CALCULATED QUANTITIES			
	1D	— thereof: Total quantity of own production captured and destroyed which has not been placed on the market previously	$1D = 1B + 1C$
1E		Production available for placing on the Union market	$1E = 1A - 1D - 1A_a$

Section 2: To be filled in by importers of gases – Article 26(1), first subparagraph of Regulation (EU) 2024/573 and point 2(a) of Annex IX to that Regulation

Quantities shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), separately for each gas listed in Annex I, II or III to Regulation (EU) 2024/573, for mixtures containing at least one of those gases or for each gas or mixture contained in imported pre-blended polyols. Quantities of hydrofluorocarbons shall be reported separately for each country of origin, except where indicated otherwise in the following table.

Only bulk imports shall be reported in this section, including quantities shipped alongside equipment for the purpose of charging that equipment after import, but not quantities contained in equipment. Imports of gases contained in products or equipment shall be reported under Section 11. All imports shall be reported, except goods under temporary storage.

	INFORMATION TO BE REPORTED	COMMENTS
2A	Total amount imported into the Union	All imports to be reported except goods under temporary storage.

	2B	— thereof: Amount imported into the Union by the reporting undertaking, including amounts purchased or received from other undertakings under a special customs procedure, not released for free circulation, and re-exported contained in products or equipment by the reporting undertaking	<p>Reporting by country of origin is not necessary.</p> <p>Bulk gases imported for inward processing, charged into products or equipment and subsequently re-exported.</p> <p>Where the re-export of products or equipment (Section 2B) does not take place in the same calendar year as the import or purchase, the quantities reported in Section 2B may include re-exports in products or equipment of 1 January stocks not placed on the Union market as reported in Section 4C.</p> <p>The type of re-exported products or equipment use shall be specified.</p> <p>Bulk gas exports shall only be reported in Section 3.</p>
	2C	— thereof: Amount of used, recycled or reclaimed hydrofluorocarbons	
	2D	— thereof: Amount of virgin hydrofluorocarbons imported for feedstock use	The type of feedstock use shall be reported.
	2E	— thereof: Amount of virgin hydrofluorocarbons imported for uses exempted under the Montreal Protocol	The type of exempted use shall be specified.
	2F	— thereof: Amount of hydrofluorocarbons contained in pre-blended polyols	
2G	Amounts under special customs procedures, purchased/received from other undertakings		<p>Includes amounts imported, but not placed on the market, by other undertakings.</p> <p>Reporting by country of origin is not required.</p>
	2H	Amounts under special customs procedures that have been sold or supplied to other undertakings	<p>Sales of amounts reported in 2A and/or 2G, where those have not been placed on the market by the reporting undertaking.</p> <p>Reporting by country of origin is not required.</p> <p>The undertaking/s in receipt of reported amounts shall be specified.</p>
	2I	Amount emitted under special customs procedures	<p>Emissions from amounts reported in 2A and/or 2G, where those have not been placed on the market by the reporting undertaking.</p> <p>Reporting by country of origin is not required.</p> <p>An explanation for the emissions shall be provided.</p>

Section 3: To be filled in by exporters of gases – Article 26(1), first subparagraph, of Regulation (EU) 2024/573 and point 3 of Annex IX to that Regulation

Quantities shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), separately for each gas listed in Annexes I, II or III to Regulation (EU) 2024/573, for mixtures containing at least one of those gases or for each gas or mixture contained in exported pre-blended polyols. Quantities of hydrofluorocarbons shall be reported separately for each country of destination, except where indicated otherwise in the following table.

Only exports of bulk gases, including any quantities shipped alongside equipment for the purpose of charging that equipment after export, shall be reported under this section.

Quantities from own production supplied to other undertakings in the Union for direct export, or own imports released for free circulation and exported either by the importer itself or supplied to other undertakings in the Union for direct export, shall be reported in reporting Section 5.

	INFORMATION TO BE REPORTED		COMMENTS
3A	Total amount exported from the Union		
	3B	— thereof: Export of amounts not placed on the market	Shall include amounts exported from own production not placed on the market, from own imports not placed on the market and from amounts purchased under special customs procedures and not placed on the market before their export. Reporting by country of destination is not required.
	AUTOMATICALLY CALCULATED QUANTITIES		
	3C	— thereof: Exported amount purchased from other undertakings within the Union	$3C = 3A - 3B$
	INFORMATION TO BE REPORTED		COMMENTS
	3G	— thereof: Amount of used, recycled or reclaimed hydrofluorocarbons exported	
	3H	— thereof: Amount of virgin hydrofluorocarbons exported for feedstock use	The type of feedstock use shall be reported.
	3I	— thereof: Amount of virgin hydrofluorocarbons exported for uses exempted under the Montreal Protocol	The type of exempted use shall be specified.
	3J	— thereof: Amount of hydrofluorocarbons contained in pre-blended polyols	

Section 4: To be filled in by producers and importers of gases and by undertakings that reclaim gases – Article 26(1), first subparagraph and Article 26(6) of Regulation (EU) 2024/573 and points 1(d), 2(b), 8(a) and 8(b), of Annex IX to that Regulation

Quantities shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), separately for each gas listed in Annexes I, II or III to Regulation (EU) 2024/573 or for mixtures containing at least one of those gases or for each gas or mixture contained in pre-blended polyols.

INFORMATION TO BE REPORTED		COMMENTS
4A	Total 1 January stocks	All stocks in the Union shall be reported. This shall not include goods under temporary storage.
4Aa	— thereof: 1 January stocks of quantities waiting to be reclaimed	To be reported only by undertakings that reclaim gases.
4B	— thereof: 1 January stocks of quantities from own import or production or from own purchases under special customs procedures	
	4C — thereof: 1 January stocks of quantities from own import or production or from own purchases under special customs procedures, previously not placed on the market	In particular unsold own production and own imports not released for free circulation.
AUTOMATICALLY CALCULATED QUANTITIES		
	4D — thereof: 1 January stocks of quantities from own import or production or from own purchases under or special customs procedures, previously placed on the market	In particular own imports released for free circulation. 4D = 4B – 4C
4E	— thereof: Other 1 January stocks	In particular from purchases within the Union. 4E = 4A – 4B
INFORMATION TO BE REPORTED		COMMENTS
4F	Total 31 December stocks	All stocks in the Union shall be reported. This shall not include goods under temporary storage.
4Fa	— thereof: 31 December stocks of quantities waiting to be reclaimed	To be reported only by undertakings that reclaim gases.
4G	— thereof: 31 December stocks of quantities from own import or production or from own purchases under special customs procedures	
	4H — thereof: 31 December stocks of quantities from own import or production or from own purchases under special customs procedures, previously not placed on the market	In particular unsold own production or own imports not released for free circulation.

	AUTOMATICALLY CALCULATED QUANTITIES		
	4I	— thereof: 31 December stocks of quantities from own import or production or from own purchases under special customs procedures, previously placed on the market	In particular own import released for free circulation $4I = 4G - 4H$
	4J	— thereof: Other 31 December stocks	In particular from purchases within the Union. $4J = 4F - 4G$
	INFORMATION TO BE REPORTED		COMMENTS
4K	Amount reclaimed by the undertaking itself		
	AUTOMATICALLY CALCULATED QUANTITIES		
4M	Total amount physically placed on the market		$4M = 1E + 2A - 2B + 2G - 2H - 2I - 3B + 4C - 4H$

Section 5: Quantities for uses exempted under Article 16(2) of Regulation (EU) 2024/573 and for producing metered dose inhalers for the delivery of pharmaceutical ingredients, to be filled in by producers and importers of hydrofluorocarbons – Article 26(1), first subparagraph, Article 26(2) and (3) of Regulation (EU) 2024/573 and points 1(c) and 2(a) of Annex IX to that Regulation

Quantities shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), separately for each hydrofluorocarbon (for gases listed in Section 1 of Annex I to Regulation (EU) 2024/573, for mixtures or pre-blended polyols containing at least one of those gases).

	INFORMATION TO BE REPORTED	COMMENTS
5A	Quantity imported into the Union for destruction	The undertaking/s carrying out the destruction shall be specified. Reports from importers that also carry out destruction themselves on the quantities destroyed shall be made in reporting Section 8.
5B	Quantity used by a producer or importer in feedstock applications or supplied directly by a producer or an importer to undertakings for use in feedstock applications	The feedstock using undertaking/s shall be specified. The type of feedstock use shall be reported. Reports from producers or importers which are also feedstock users themselves on their feedstock use shall be made in reporting Section 7.
5C	Quantity supplied directly to undertakings for export out of the Union, where those quantities were not subsequently made available to another party within the Union prior to export	Quantities that undertakings released for free circulation and directly exported themselves shall also be reported here. Note that all gases to be reported here must have been labelled as 'for direct export out of the EU only' at the time of release for free circulation in line with Article 12(9) of Regulation (EU) 2024/573. Quantities imported under special customs procedures and sold or supplied to other undertakings during those procedures for re-export shall only be reported in Section 2H.

		The exporting undertaking/s shall be specified. Verification documents should be provided. Only hydrofluorocarbons in bulk shall be reported, not quantities contained in products or equipment.
5D	Quantity supplied directly for use in military equipment	The undertaking receiving the quantity for use in military equipment shall be specified.
5E	Quantity supplied directly to an undertaking using it for the etching of semiconductor material or the cleaning of chemicals vapour deposition chambers within the semiconductor manufacturing sector	The receiving semiconductor manufacturer shall be specified.
5F	Quantity supplied directly to an undertaking producing metered dose inhalers for the delivery of pharmaceutical ingredients	The receiving producer of metered dose inhalers for the delivery of pharmaceutical ingredients shall be specified.

Section 5a: Quantities for uses exempted under Article 16(2) of Regulation (EU) 2024/573 and for producing metered dose inhalers for the delivery of pharmaceutical ingredients, to be filled in by recipients of hydrofluorocarbons – Article 26(5) of Regulation (EU) 2024/573 and point 7 of Annex IX to that Regulation

Quantities shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), separately for each hydrofluorocarbon (for gases listed in Section 1 of Annex I to Regulation (EU) 2024/573, for mixtures or pre-blended polyols containing at least one of those gases).

	INFORMATION TO BE REPORTED	COMMENTS
5aD	Quantity exempted under Article 16(2), received for use in military equipment directly from an importer or producer	
5aE	Quantity exempted under Article 16(2), received for the etching of semiconductor material or the cleaning of chemicals vapour deposition chambers within the semiconductor manufacturing sector directly from an importer or producer	
5aF	Quantity received for the production of metered dose inhalers for the delivery of pharmaceutical ingredients directly from an importer or producer	

Section 6: Categories of application of gases for the Union market, to be filled in by producers and importers of gases – Article 26(1), first subparagraph, Article 26(2) and (3), of Regulation (EU) 2024/573 and points 1(b) and 2(a) of Annex IX to that Regulation

Quantities shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), separately for each gas listed in Annexes I, II or III to Regulation (EU) 2024/573 or mixture containing at least one of those gases.

		INFORMATION TO BE REPORTED	COMMENTS
6A		Export	For hydrofluorocarbons, the amount reported here (6A) shall be the same amount or higher as that reported in reporting Section 5, as supplied directly to undertakings for export out of the Union, where those quantities were not subsequently made available to any other party within the Union, prior to export reported under 5C.
6B		Destruction	For hydrofluorocarbons, the amount reported here (6B) shall be the same amount or higher as that reported in reporting Section 5, as imported into the Union for destruction reported under 5A.
6C		Military equipment	For hydrofluorocarbons, the amount reported here (6C) shall be the same amount or higher as that reported in reporting Section 5 as supplied directly for use in military equipment reported under 5D.
6D		Refrigeration, air-conditioning and heat pumps	
6E		Other heat transfer fluids	
6F		Production of foams	
6G		Production of pre-blended polyols	
6H		Fire protection	
6I		Aerosols – metered dose inhalers	For hydrofluorocarbons, the amount reported here (6I) shall be the same or higher as that reported in reporting Section 5 as supplied directly to an undertaking producing metered dose inhalers for the delivery of pharmaceutical ingredients (5F).
6J		Aerosols – other uses	
6K		Solvents	
6L		Feedstock	For hydrofluorocarbons, the amount reported here [6L] shall be the same or higher as that reported in reporting Section 5 as used by a producer or importer in feedstock applications or supplied directly by a producer or an importer to undertakings for use in feedstock applications (5B). The type of feedstock use shall be reported.

6M		Semiconductor manufacture	For hydrofluorocarbons, the amount reported here [6M] shall be the same amount or higher as that reported in reporting Section 5 as supplied directly to an undertaking using it for the etching of semiconductor material or the cleaning of chemicals vapour deposition chambers within the semiconductor manufacturing sector [5E].
6N		Photovoltaics manufacture	
6O		Other electronics manufacture	
6P		Electrical switchgear equipment	
6Q		Particle accelerators	
6R		Magnesium die casting operations	
		AUTOMATICALLY CALCULATED QUANTITIES	
6S		Anaesthetics	$6S = 6S1 + 6S2$
		INFORMATION TO BE REPORTED	COMMENTS
	6S1	Anaesthetics for human use	
	6S2	Anaesthetics for veterinary use	
6T		Other or unknown application	Other application/s shall be specified, and unknown application shall be explained by the reporter.
6U		Leakage during storage, transport or transfer, and emissions occurring at production	Where such quantities are reported, an explanation shall be provided.
6V		Accountancy adjustments	Where such quantities are reported, an explanation shall be provided.
		AUTOMATICALLY CALCULATED QUANTITIES	
6W		Total quantities for the categories for applications	$6W = 6A + 6B + 6C + 6D + 6E + 6F + 6G + 6H + 6I + 6J + 6K + 6L + 6M + 6N + 6O + 6P + 6Q + 6R + 6S + 6T + 6U + 6V$ If data are reported correctly, then the total quantities for the categories of applications (6W) will correspond to the calculated total quantity supplied to the Union market (6X).
6X		Total quantity supplied to the Union market	$6X = 1E + 2A + 2G - 2H - 3B + 4B - 4G + 4K$

Section 7: To be filled in by feedstock users of gases – Article 26(3) of Regulation (EU) 2024/573 and point 5 of Annex IX to that Regulation

Quantities shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), separately for each gas listed in Annex I to Regulation (EU) 2024/573 or mixture containing at least one of those gases.

Only quantities actually used as feedstock shall be reported in this section.

Where hydrofluorocarbons (gases listed in Section 1 of Annex I to Regulation (EU) 2024/573 or mixture containing at least one of those gases) were produced or imported by the undertaking using them as the feedstock, the quantities used shall also be reported in Section 5. Where hydrofluorocarbons were produced by the undertaking using them as the feedstock, the quantities used shall also be reported in Section 1. Where an undertaking produced or imported hydrofluorocarbons and subsequently sold them for use as feedstock to other undertakings, the quantities supplied shall not be reported in this section, but only in reporting Section 5, specifying the feedstock using undertaking, and in the case of producers those shall also be reported in reporting Section 1, specifying the Member State where the feedstock use takes place.

	INFORMATION TO BE REPORTED	COMMENTS
7A	Amount used as feedstock by the undertaking itself	The type of feedstock use shall be reported.
	7A_a thereof: amount of virgin gases	To be reported for HFC-23 only.

Section 8: To be filled in by undertakings having destroyed gases – Article 26(2) of Regulation (EU) 2024/573 and point 4 of Annex IX to that Regulation

Quantities shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), separately for each fluorinated greenhouse gas listed in Annexes I, II or III to Regulation (EU) 2024/573, or mixture containing at least one of those gases.

For hydrofluorocarbons, the destruction technology approved under the Montreal Protocol shall be specified, differentiating concentrated sources (such as recovered refrigerants) and dilute sources (such as waste streams containing foams).

The total quantities destroyed by the reporting undertakings themselves shall be reported. Undertakings which are producers shall also report on the quantities of their own production which has been destroyed, in reporting Section 1.

Undertakings which are importers of hydrofluorocarbons (gases listed in Section 1 of Annex I to Regulation (EU) 2024/573, or mixture containing at least one of those gases) shall also report the quantities of their own imports which have been destroyed, in reporting Section 5.

Quantities sent for destruction to other undertakings in the Union shall not be reported in this section. Quantities exported for destruction outside the Union shall be reported in Section 3G.

	INFORMATION TO BE REPORTED	COMMENTS
8_A	Amount destroyed by the reporting company using thermal oxidation	For hydrofluorocarbons, the destruction technology approved under the Montreal Protocol shall be specified, differentiating concentrated and dilute sources.

	8_A_a	— thereof: amount of destroyed virgin gases (including amounts produced as by-products and destroyed)	To be reported for HFC-23 only. The destruction technology approved under the Montreal Protocol shall be specified, differentiating concentrated and dilute sources.
8_Ba	Amount destroyed by the reporting company using plasma technologies		For hydrofluorocarbons, the destruction technology approved under the Montreal Protocol shall be specified, differentiating concentrated and dilute sources.
	8_Ba_a	— thereof: amount of destroyed virgin gases (including amounts produced as by-products and destroyed)	To be reported for HFC-23 only. The destruction technology approved under the Montreal Protocol shall be specified, differentiating concentrated and dilute sources.
8_Bb	Amount destroyed by the reporting company using conversion (or non-incineration) technologies		For hydrofluorocarbons, the destruction technology approved under the Montreal Protocol shall be specified, differentiating concentrated and dilute sources.
	8_Bb_a	— thereof: amount of destroyed virgin gases (including amounts produced as by-products and destroyed)	To be reported for HFC-23 only. The destruction technology approved under the Montreal Protocol shall be specified, differentiating concentrated and dilute sources.
8_C	Amount destroyed by the reporting company using other technologies		For hydrofluorocarbons, the destruction technology approved under the Montreal Protocol shall be specified, differentiating concentrated and dilute sources. For other destroyed gases, apart from hydrofluorocarbons, the employed destruction technologies shall be specified.
	8_C_a	— thereof: amount of destroyed virgin gases (including amounts produced as by-products and destroyed)	To be reported for HFC-23 only. The destruction technology approved under the Montreal Protocol shall be specified, differentiating concentrated and dilute sources.
	AUTOMATICALLY CALCULATED QUANTITIES		
8_D	Amount destroyed by the reporting company itself		$8_D = 8_A + 8_Ba + 8_Bb + 8_C$
	8_D_a	— thereof: amount of destroyed virgin gases (including amounts produced as by-products and destroyed)	For HFC-23 only $8_D_a = 8_A_a + 8_Ba_a + 8_Bb_a + 8_C_a$
	INFORMATION TO BE REPORTED		COMMENTS
8_E	1 January stocks waiting to be destroyed		
8_F	31 December stocks intended for destruction waiting to be destroyed		

Section 11: To be filled in by undertakings having placed on the market gases contained in products or equipment or parts thereof pursuant to Article 26(4) of Regulation (EU) 2024/573 – Article 26(4) of Regulation (EU) 2024/573 and point 6 of Annex IX to that Regulation

Quantities of fluorinated greenhouse gases listed in Annexes I, II or III to Regulation (EU) 2024/573 or mixtures containing at least one of those gases contained in the products and equipment or parts thereof shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), by category. In addition to the total quantity of gases, the number of units shall be reported per category, unless otherwise stated. For Section 11_M, the number of units shall refer to the number of functional units and shall be reported on with the associated quantities of substances.

Producers of products or equipment or parts thereof manufactured in the Union shall not report on products and equipment or parts thereof where the contained gases were previously imported into or produced in the Union. Where a producer itself produces bulk gas in the Union for use in the Union for manufacturing their products and equipment or parts thereof, its reporting on production (reporting Section 1) shall also cover the relevant gas amounts, so those amounts shall not be reported in this Section, but only in reporting Section 1.

Importers of products or equipment or parts thereof containing a fluorinated greenhouse gas listed in Annexes I, II and III to Regulation (EU) 2024/573 shall report on all gas containing imports released by customs for free circulation in the Union. Imports of pre-blended polyols shall not be reported in this Section, but only in Section 2.

Where hydrofluorocarbons (gases listed in Section 1 of Annex I to Regulation (EU) 2024/573 or mixtures containing at least one of those gases) contained in imported refrigeration, air conditioning equipment or heat pumps or in imported metered dose inhalers for the delivery of pharmaceutical ingredients had previously been exported from the Union, and had been subject to the hydrofluorocarbon quota limitation for placing on the Union market, that shall be reported in reporting Section 12 in order to prove compliance with Article 19 of Regulation (EU) 2024/573. Where imported refrigeration equipment, air conditioning equipment or heat pumps or parts thereof or imported metered dose inhalers for the delivery of pharmaceutical ingredients containing hydrofluorocarbons had previously been placed on the Union market (including the charge of hydrofluorocarbons) and had subsequently been exported from the Union prior to re-import, that shall be reported in reporting Section 12a to prove compliance with Article 19 of Regulation (EU) 2024/573. The following categories of products or equipment or parts thereof include components intended for that specified product or equipment categories.

Where there is a reference to rated capacity and the equipment can have different functions the rated capacity refers to the primary function of the equipment.

Where Eco-design legislation adopted under Directive 2009/125/EC of the European Parliament and of the Council⁽¹⁾ establishes a method for calculating the rated capacity of an equipment, that method shall be used.

					AUTOMATICALLY CALCULATED QUANTITIES	COMMENTS
11_A					Stationary air conditioning equipment and heat pumps, except chillers	Chillers that fall under the definition of Article 3 point (44) of Regulation (EU) 2024/573 shall be reported in Section 11_C. Reversible chillers are considered to fall under this category and shall be reported here (11_A). $11_A = 11_A1 + 11_A2$

⁽¹⁾ Directive 2009/125/EC of the European Parliament and of the Council of 21 October 2009 establishing a framework for the setting of ecodesign requirements for energy-related products (OJ L 285, 31.10.2009, p. 10, ELI: <http://data.europa.eu/eli/dir/2009/125/oj>).

	11_A1			— thereof: Self-contained equipment	Equipment as referred to in point (8) of Annex IV to Regulation (EU) 2024/573, regardless of the GWP of the contained gases. Includes monobloc units and equipment that is moveable between rooms by the end user including portable split systems. $11_A1 = 11_A1a + 11_A1b + 11_A1c$
		11_A1a		— thereof: with a maximum rated capacity up to and including 12 kW	Equipment as referred to in points 8(a), 8(b) and 8(c), of Annex IV to Regulation (EU) 2024/573, regardless of the GWP of contained gases. $11_A1a = 11_A1a1 + 11_A1a2 + 11_A1a3 + 11_A1a4$

11_R					Total products and equipment covered by Article 19(1) of Regulation (EU) 2024/573	For hydrofluorocarbons only. 11_R = 11_G + 11_J1 ⁽¹⁾

⁽¹⁾ The value for field 11_J1 will not be considered for the year 2024 in the calculation of 11_R.

Section 12: To be filled in by importers of refrigeration equipment, air conditioning equipment or heat pumps or metered dose inhalers charged with hydrofluorocarbons, where the hydrofluorocarbons contained in the imported equipment or products had previously been exported from the Union and acquired by manufacturers of equipment or products directly from the exporting undertaking, and had been subject to the hydrofluorocarbon quota limitation for placing on the Union market – Article 26(7) of Regulation (EU) 2024/573 and point 6 of Annex IX to that Regulation

Quantities shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), separately for each hydrofluorocarbon (gases listed in Section 1 of Annex I to Regulation (EU) 2024/573 or mixture containing at least one of those gases).

	INFORMATION TO BE REPORTED	COMMENTS
12A	Amount of hydrofluorocarbons charged into the imported refrigeration equipment, air conditioning equipment or heat pumps, released by customs for free circulation in the Union, for which the hydrofluorocarbons had previously been exported from the Union and which had been subject to the hydrofluorocarbon quota limitation for placing on the Union market	Applies to hydrofluorocarbons contained in imported refrigeration equipment, air conditioning equipment or heat pumps included in the amounts reported in Section 11_G. The hydrofluorocarbon exporting undertaking/s and the year/s of export shall be specified. The undertaking/s having placed the hydrofluorocarbons on the Union market for the first time and the year/s of that placing on the market shall be specified.
12B	Amount of hydrofluorocarbons charged into the imported metered dose inhalers, released by customs for free circulation in the Union, for which the hydrofluorocarbons had previously been exported from the Union and which had been subject to the hydrofluorocarbon quota limitation for placing on the Union market	Applicable for the first time to reporting on activities carried out in 2025 (by 31 March 2026 at the latest). Applies to hydrofluorocarbons contained in imported metered dose inhalers included in the amounts reported in Section 11_J1. The hydrofluorocarbon exporting undertaking/s and the year/s of export shall be specified. The undertaking/s having placed the hydrofluorocarbons on the Union market for the first time and the year/s of that placing on the market shall be specified.

Section 12a: To be filled in by importers of refrigeration equipment, air conditioning equipment or heat pumps or metered dose inhalers charged with hydrofluorocarbons, where the imported equipment or products (including the charge of hydrofluorocarbons) had previously been placed on the Union market and subsequently been exported from the Union prior to the re-import – Article 26(7) of Regulation (EU) 2024/573 and point 6 of Annex IX to that Regulation

Quantities shall be reported in metric tonnes with accuracy to the third decimal place (if the fourth decimal place is 5 or more, the third decimal place shall be rounded up, otherwise it shall be rounded down), separately for each hydrofluorocarbon (gases listed in Section 1 of Annex I to Regulation (EU) 2024/573 or mixture containing at least one of those gases).

	INFORMATION TO BE REPORTED	COMMENTS
1 2aA	Amount of hydrofluorocarbons charged into the imported refrigeration equipment, air conditioning equipment or heat pumps, where the equipment (including the charge of hydrofluorocarbons) had previously been placed on the Union market and subsequently been exported from the Union prior to the re-import	Applies to imported refrigeration equipment, air conditioning equipment or heat pumps included in the amounts reported in Section 11_G. The equipment exporting undertaking/s and the year/s of export shall be specified. The undertaking/s having placed the hydrofluorocarbons or the pre-charged equipment on the Union market for the first time and the year/s of that placing on the market shall be specified.
1 2aB	Amount of hydrofluorocarbons charged into the imported metered dose inhalers, where the inhalers (including the charge of hydrofluorocarbons) had previously been placed on the Union market and subsequently been exported from the Union prior to the re-import	Applicable for the first time to reporting on activities carried out in 2025 (by 31 March 2026 at the latest). Applies to imported metered dose inhalers included in the amounts reported in Section 11_J1. The equipment exporting undertaking/s and the year/s of export shall be specified. The undertaking/s having placed the hydrofluorocarbons or the metered dose inhalers on the Union market for the first time and the year/s of that placing on the market shall be specified.

Nil report: To be completed by undertakings that have been allocated quota pursuant to Article 17(4) of Regulation (EU) 2024/573, or have received quotas pursuant to Article 21(1) of that Regulation but have not placed any quantities of hydrofluorocarbons on the market the calendar year for which the report is submitted – Article 26(1), second subparagraph, of Regulation (EU) 2024/573

Undertakings that report no hydrofluorocarbons (gases listed in Section 1 of Annex I to Regulation (EU) 2024/573 or mixtures containing at least one of those gases) placed on the Union market in Section 4M shall confirm the absence of related activities.
